

CHATHURANGA KUMARASINGHE

Senior Software Engineer (Technical Lead)

+971557504580 | kumarasinghe.it@gmail.com | www.linkedin.com/in/chathurangak | Dubai, UAE

SUMMARY

Results-oriented **Senior Software Engineer (Full Stack)** with **11+ years of experience** delivering high-quality software solutions across **blockchain, ERP, HR, and healthcare** domains. Proficient in **Node.js, NestJS, ReactJS, TypeScript**, and cloud platforms. Demonstrated ability to **lead teams, drive innovation, and design scalable, maintainable systems**. Strong problem-solver with excellent communication skills and a solid foundation in **agile engineering practices**.

TECHNICAL SKILLS

Backend: Node.js, NestJS, Express.js, TypeORM, JavaScript, TypeScript, PHP (Laravel)

Frontend: React.js, Next.js, Material-UI, React-Bootstrap, TailwindCSS, Redux, HTML5, CSS3

Databases & Messaging: MongoDB, MySQL, PostgreSQL, Redis, RabbitMQ, Apache Kafka, BullMQ

Cloud & DevOps: Microsoft Azure, AWS, Google Cloud, Docker, Rancher, GitLab CI/CD, GitHub, Bitbucket

Architecture & Integration: RESTful APIs, WebSockets (Socket.IO), Microservices, API Integration

Development Practices: Agile (Scrum), CI/CD, Git, Jira, ClickUp, Unit Testing, Code Reviews

PROFESSIONAL EXPERIENCE

Software Developer (Team Lead - Backend)

SoftBuilders Software Design LLC

Aug 2024 – Present

Business Bay, UAE

- Lead backend development for a blockchain-driven platform, designing scalable microservices and real-time systems using NestJS, Redis, RabbitMQ, and Socket.IO.
- Build and maintain a BullMQ batch engine that reduces reward processing time by 65%.
- Designed and implemented the DeFi360 backend, enabling staking, licensing, wallet integrations, and smart contract-based rewards.
- Integrate PandaDoc for onboarding workflows and manage secure CI/CD deployments.

Technical Lead

Inova IT Systems (Pvt) Ltd

Mar 2023 – Aug 2024

Colombo, Sri Lanka

- Led a team of 15+ engineers to deliver secure, high-quality solutions for eRL 2.0 and SLAASM projects.
- Designed application architecture, database models, and code structure to ensure scalability and maintainability.
- Collaborated with clients in Sweden and Singapore, driving R&D and enforcing engineering best practices.

Associate Technical Lead - Senior Software Engineer

Inova IT Systems (Pvt) Ltd

Oct 2018 – Mar 2023

Colombo, Sri Lanka

- Optimized CxPulse performance with improved Laravel queues and SQL, boosting efficiency by 70%.
- Enhanced dashboards and CMS by integrating Node.js microservices with React.js frontend.
- Led the development team, reviewed code, and collaborated with QA to ensure delivery quality.

Senior Software Engineer

Nov 2017 – Sep 2018

Smart Employees (Pvt) Ltd

Colombo, Sri Lanka

- Developed and maintained OneHRIS HRIS/payroll with user collaboration and feature enhancements.
- Ensured application quality and performance through testing, troubleshooting, and optimization.

Software Engineer

Aug 2016 – Nov 2017

Infoseek (Pvt) Ltd

Colombo, Sri Lanka

- Developed mintHRM HRIS, led Leave Management module, and resolved critical issues.
- Enhanced code quality, performance, and security through debugging and improvements.

Software Engineer

Jul 2014 – Jul 2016

Uni-Consultancy Services in University of Moratuwa

Moratuwa, Sri Lanka

- Developed and maintained MIS/ERP systems, ensuring code quality and requirements compliance.
- Optimized performance and proactively resolved defects through testing.

EDUCATION

Master of Science in Information Technology

2017

Cardiff Metropolitan University

United Kingdom

BEng (Hons) Software Engineering

2013

Staffordshire University

United Kingdom

CERTIFICATIONS & AWARDS

Toastmasters - Certification of Leadership and Communication

2022

Toastmasters International

Colombo, Sri Lanka

CMMI 2.0 Level 3 - Certificate of Appreciation

2022

Axiata Digital Labs

Colombo, Sri Lanka

Agile Certification

2022

Axiata Digital Labs

Colombo, Sri Lanka

KEY PROJECTS

- **Homnifi Platform:** Decentralized app for staking, license management, and blockchain integration. (NestJS, MongoDB, PostgreSQL, Socket.IO, Redis, RabbitMQ, BullMQ, Docker)
- **ERL 2.0:** Digital vehicle revenue licensing system across 330+ Sri Lankan authorities. (NestJS, React.js, TypeORM, MySQL, Keycloak)
- **DynamicDocuments QT:** Multi-tenant offer management platform used across Scandinavia. (NodeJS, React-Bootstrap, MongoDB, Azure, Docker)
- **DOC990 & MageyMemo:** Scalable doctor channeling systems used in Sri Lanka and Maldives. (NodeJS, React.js, MySQL, Docker, CI/CD)
- **CxPulse:** Survey management platform for 17M+ for Sri Lanka's largest mobile network. (PHP Laravel, Redis, NodeJS, MySQL, Laravel Que)
- **SLAASMB** Audit automation platform with secure WSO2 Identity Server login. (ExpressJS, TypeScript, React Material UI, MySQL)
- **OneHRIS / MintHRM** Cloud HR systems with leave, attendance, and payroll processing. (PHP Laravel/Yii, JavaScript, HTML5, CSS)
